

PRODUCT OF THE MONTH

SIKALASTIC® 560

Economical and eco-friendly liquid applied waterproofing solution based on Sika Co-Elastic Technology (CET)

Sikalastic® 560 is a cold-applied, 1-component waterborne liquid applied waterproofing membrane, highly elastic & UV resistant.

Characteristics & Advantages

- ◆ Highly elastic, crack bridging, seamless waterproof membrane.
- ◆ Excellent adhesion to porous & non-porous substrates, use in highly exposed conditions.
- ◆ Highly reflective to reduce cooling costs, UV resistant, non-toxic, low VOC & approved for use with drinking water.

Size 15 Litre pail

Colour Grey or White

Also Available

Sikaflex® PRO

Multipurpose, highly flexible polyurethane sealant.

Size 310ml Ctg & 600ml Ssg

SikaTite® WPU

Water based modified polyurethane waterproofing membrane for under-tile & protected applications.

Size 1lt, 4lt & 15lt

SikaTite® Moisture Seal 2K

Two part, low VOC, water based epoxy primer for green concrete.

Size 20lt kit
