

# PRODUCT OF THE MONTH

## SikaSwell<sup>®</sup> S-2

Size—600 ml

One component polyurethane, extrudable swelling waterstop.

Construction  
Joints

Sealing new to  
existing works

Penetrations

Sealing Cracks

**No profile**  
Water flows  
through the  
construction joint

**With SikaSwell S-2**  
water can pass at  
the beginning but in  
a very limited  
quantity

**SikaSwell S-2**  
**After expansion**  
the pressure  
generated by  
SikaSwell S-2  
assures a perfectly  
watertight joint
