HIGH GLOSS ENAMEL

TECHNICAL DATA

PREPARATION

All surfaces must be clean, dry and free from dirt, dust, grease and loose or flakey paint. Fill holes and cracks with suitable filler and sand lightly. Undercoat and sealers should be used where required prior to application of finishing coats. A grey undercoat may be required prior to top coating with paint tinted from an accent or deep base. Two finishing coats are recommended for durability and decorating excellence.

APPLICATION

POLYGLOSS may be applied using spray, brush or roller. Ideally, 2 or more coats should be applied at intervals of not less than 8 hours. Do not apply when rain is imminent or when the air or surface temperature is below 12° C or above 32° C. First coat may be diluted with no more than 10% mineral turpentine.

COVERAGE

Over previously painted surfaces 1 litre covers approx 15 square metres. New or porous surfaces 1 litre covers approx 7.5 square metres.

CURING

Touch dry 8 hours, recoat 16 hours.

CLEAN UP

Wash tools and equipment with mineral turpentine.

CARE OF NEW PAINT WORK

Wash with a soft cloth and mild detergent solution after seven days.

PACKAGING

Available in 2, 4 and 10 litre containers
