CERTIFYING INSTALLER

Name of Certifying Officer: _____

Company Name: _____

Company Address: _____

Contact Numbers: _____

I, the person responsible named above, declare that the waterproofing materials and installation work complies with Australian Standards, BCA and manufacturers specifications.

Signature: _____

Date: _____

We certify that the waterproofing materials and method of installation comply with Australian Standards, BCA and manufacturers specifications. Thus the works carry a ten year warranty.

This warranty is only valid once full payment for works performed has been received .

In the case a product or workmanship is deemed by an impartial professional to be faulty, we guarantee the product/s will be rectified or replaced as we deem necessary. It is imperative to allow proper curing times, which vary due to climatic and project conditions. Please ask for information regarding following works on or over new membranes. Warranty validity is subject to all subsequent responsibilities by any persons after installation being carried out properly. Any other subsequent works or cost's are not covered under this warranty. It is the customers responsibility to ensure correct post-procedures are carried out. The Warranty - Implied or Otherwise is conditional to the specifics of the project. The Quotation/Tender or instrument of Contract together with the standard or special Terms & Conditions are to be read in conjunction in respect of the warranty.
